Our program is designed to enrich children's learning through both guided and free play. We value your child's safety first and foremost. We are very hands-on friendly. Nature is an amazing classroom in itself, and we aim to explore it as much as possible. We are also proud to include faith-based learning into our curriculum. Our goal is simply to plant a seed for Christ's love in children's hearts. Our curriculum addresses each child's academics, as well as their social and emotional growth. We not only want to serve our students, but we want to serve families and reach a need in our community.
